

## Job Description

Rev360 is looking for a Java Software Engineer!

### About Rev360

Rev360 is a growth stage, cutting-edge software company providing a cloud-based Electronic Health Record and Practice Management solution for optometry. With over 4500 doctors and 20,000 users on the system, we are servicing customers in all 50 states and Canada. Our application is the leading cloud-based health record solution for eyecare. Rev360 offers a comprehensive total rewards package including competitive compensation programs with base salary and bonus opportunity, along with generous plans of health, welfare, 401(k) savings and paid time off benefits. Qualified applicants should reply to this posting with their resume.

We are a completely virtual company with all employees working from their home offices. We are open to US-based candidates.
